

ARCHITECTURAL MASONRY

Syreford Quarries & Masonry Ltd provide architectural masonry finished to the highest level of craftsmanship and precision. Our highly skilled team of banker masons combine traditional methods of hand carving alongside modern techniques to create finished masonry to exact accuracy. Our knowledge of stone coupled with our expertise allows us to produce intricate, classical and contemporary stonework.

Whether you are looking to match into existing stone for a restoration project, or you are undertaking a new build, all our stone is selected, cut to and worked to your individual requirements.

Our range of masonry products include:

- ❑ Mullion Window Surrounds & Door Surrounds
- ❑ Lintels, Cills, Plinth & String Courses
- ❑ Coping, Quoins & Pier Caps
- ❑ Label Moulds, Tracery, Pediments & Columns
- ❑ Name & Date Stones
- ❑ Cantilevered Stone Staircases & Porticos

Our products can be produced from various stones and colours ranging from our own Syreford Stone, Guiting Stone, Bath Stone, Ancaster and Iron Stone.

Syreford

QUARRIES & MASONRY LTD

“The professional team at Marson Rathbone Taylor LLP Chartered Architects set out to source the highest quality materials and craftsmanship for a wide range of projects around Warwickshire, Gloucestershire and Oxfordshire.

Syreford Quarries & Masonry Ltd provide an extraordinary natural source of Cotswold stone of excellent appearance which enables the team of Masons and support staff to deliver the most intricate of cut stone components to the most exacting standards.

The design process involves production input at the earliest stage. This allows us to prepare technical drawings with sufficient detailed information for Syreford Quarries & Masonry Ltd to produce the exquisite dimensioned stone with complimentary building stone in a variety of colours and finishes.

We have been pleased with the coordination and delivery performance and the attention to detail supplied by the managing organisation often to exacting contract programmes.”
